Python Code: Check if a Number is Greater than 100

```python
# Function to check if a number is greater than 100

def check_number():

    try:

        # Get user input

        number = float(input("Enter a number: "))

        # Decision logic

        if number > 100:

            print("Greater than 100")

        else:

            print("Less than 100")

    except ValueError:

        print("Invalid input! Please enter a valid number.")

# Run the function

check_number()
```
